

Ask Yourself...

- ? Do you feel like your organization is always reinventing the wheel—that you never do the same thing the same way twice?
- ? Do your people spend too much time looking for the most current version of a particular document, procedure, form, etc?
- ? How much of your day is wasted by interruptions?
- ? Is “I didn’t know we needed to do that, or did it that way,” a familiar statement in your organization?

“Partners for Change was instrumental in transforming the Freedom Writers Foundation from a small loosely-run organization to a professional nonprofit organization, impacting the lives of thousands of teachers and students across the globe.”

*- Faye Walsh, former Executive Director,
Freedom Writers Foundation*

Take Your Organization from Chaos to Control

We can help... 

*Helping Your Organization
Build a Foundation for Success*

- ? Are you passionate about your cause but frustrated by the challenges to increase your impact?
- ? Do you have the capacity and the processes to recruit, retain, and effectively make use of volunteers?

Partners for Change is a small consulting firm serving nonprofit organizations and small to mid-size businesses. We bring years of experience in working with many kinds of companies: from large corporations to small start-up nonprofits.

Our focus is providing tools and solutions that will help you “systematize” your organization resulting in consistency, reliability, and greater financial success.

When you commit to organizing and optimizing your nonprofit...

the sky is the limit!

 Solutions for Nonprofits

*Helping Your Organization
Build a Foundation for Success*

Most nonprofits are faced with many of the same challenges and issues that businesses face. To be successful in maximizing their impact, nonprofits need to operate with the same efficiencies, effectiveness and cost controls of successful businesses and franchises.

In large part their success will be driven by their business model and their ability to “systematize” their operations. This includes the development of standard operating procedures,

administrative controls, and training & management systems.

The implementation of TouchStone will result in predictability, reliability and consistency within all critical systems and processes including program and service delivery, volunteer administration, and fundraising.

Every nonprofit is unique, with its own set of mission-specific programs and practices and its own strategies for success. And whether you’re a large or small nonprofit, TouchStone can provide you with comprehensive, customized organizational development and management tools that help managers, employees and volunteers stay **focused and aligned**.

*“Not for profit is a tax designation—
not an operational strategy.”*

“Partners for Change...diligently and deliberately helped to move the Woodburn Family Learning Center (WFLC) from the brink of closure just a few years ago into a position of solvency with the capability to adjust to economic and program changes in a smooth, business-like fashion.”

- Mike Ryan, Board Chair,
Woodburn Family Learning Center

Build and manage your core organization processes including:

- Streamlining processes and eliminating redundancy
- Improving the efficiency and effectiveness of managers, employees and volunteers
- Making better, more proactive decisions
- Adapting to a changing environment
- Gaining control and visibility over your entire organization
- Building new procedures or standardizing & organizing your current ones
- Ensuring employees and volunteers are trained and following their procedures
- Providing all users the information they need to run and manage your organization better through easy-to-use interfaces
- **TouchStone is an on-demand web based application – it is simple, straight forward, easy to use and affordable. In essence it can power your nonprofit to success.**
