

Ask Yourself...

- ? Do you feel like your organization is always reinventing the wheel—that you never do the same thing the same way twice?
- ? Do your people spend too much time looking for the most current version of a particular document, procedure, form, etc?
- ? How much of your day is wasted by interruptions?
- ? Is “I didn’t know we needed to do that, or did it that way,” a familiar statement in your organization?

“People are very attracted to structure, systems, feeling empowered to do their job well and participate in a really dynamic way and to stay engaged. We didn’t have this before but TouchStone really lays everything out. Here are the tools. Here are the expectations. Working with these is how you win here in our company.”

- R. Pytell - La Jolla, CA

We can help... 

*Helping Your Organization
Build a Foundation for Success*

- ? Have you achieved the success you dreamed about for your business when you first got started?
- ? Does your staff clearly understand what they need to do, how to do it and what is expected of them?

Partners for Change is a small consulting firm serving “non profit” organizations and small to mid-size businesses. We bring years of experience in working with many kinds of companies: from large corporations to small start-up nonprofits.

Our focus is providing tools and solutions that will help you “systematize” your organization resulting in consistency, reliability, and greater financial success.

to organizing and
optimizing your
business...**

the sky is the limit!

 Solutions for Small Businesses

*Helping Your Organization
Build a Foundation for Success*

Most business owners are very good at the “work” of their business – what they deliver in products and services to their customers. They start their companies using their skills and talent for this work but often find they are missing big pieces of knowledge like marketing, management, finances, or sales – the knowledge of how to build and manage the business itself.

They are so busy “doing the business” that they have little time to work “on the business”.

With TouchStone Business Systems, they will have the tools to build these capabilities and achieve predictable and consistent results. This on-demand, web-based application is simple, straight-forward, easy to use and affordable. It can power a business to success!

Every small business is unique, with its own set of industry-specific practices and its own strategies for success. But whether you’re a retailer, manufacturer or a service provider, TouchStone can provide you with comprehensive business development and management tools that help owners and employees stay on top of their business.

“Even if you’re on the right track, you’ll get run over if you just sit there”

- Will Rogers

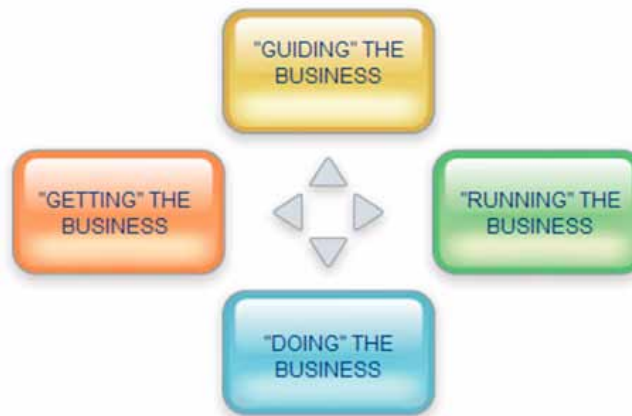

“A key person in my organization gave notice this week. If I didn’t have TouchStone, this would be a serious set back. But because her entire job description and all that she does, (her systems), are documented, finding a replacement and getting that new employee up to speed will be as easy as painting by numbers.”

- C. King - Bishop, GA

Build and manage your core business procedures to:

- Streamline processes and eliminating redundancy
- Improve the efficiency and effectiveness of employees
- Make better, more proactive decisions
- Adapt to changing market requirements — quicker than your competitors
- Gain control and visibility over your entire business
- Build new procedures or standardize & organize your current ones
- Ensure employees are trained and following their procedures
- Give all users easy-to-use interfaces to provide the information they need to run your business better
- **TouchStone is an on-demand web based application – it is simple, straight forward, easy to use and affordable. In essence it can power your business to success.**
